SUMMARY

Software Engineer specializing in Backend .NET Development with extensive experience in designing and developing scalable web applications and APIs using ASP.NET Core MVC, Web API, and Entity Framework Core. Experienced with nopCommerce Architecture and skilled in implementing complex backend business logic, optimizing SQL Server interactions, and delivering maintainable, high-quality solutions.

EDUCATION

B.S. in Computer Science and Applications | The Hashemite University   **10/2022 – 01/2026**

GPA: 3.01 out of 4 (Very good)

High school | Mazhar Arslan Secondary School   **09/2021 – 08/2022**

Grade: 91.5 out of 100

EXPERIENCE

Software Engineer (.NET) | AiGlean   **02/2026 - Present**

- **Full-Cycle Development & Architecture:** Engineering end-to-end lifecycle of nopCommerce projects, from initial system architecture and setup to final deployment and maintenance.
- **Custom Plugins & Backend Logic:** Developing tailored plugins and extending core business logic by integrating third-party services like WhatsApp Business API using ASP.NET Core, C#, and EF Core.

IT Operations Intern (University Internship) | Danish Jordanian Dairy   **07/2025 – 08/2025**

- **Technical Operations:** Fixed and resolved 25+ technical issues weekly as part of university training, providing hands-on troubleshooting for networking, hardware, and software.
- **System & Data Maintenance:** Performed database management tasks using SQL Server and maintained IT documentation to ensure operational efficiency.

PROJECTS

Focus and read Web app (Graduation Project)

- **Description:** Smart study Web application for ADHD to increase focus and productivity.
- **Role & Tech Stack:** Developed backend, DB architecture, and AI (Llama 3) integration using ASP.NET Core MVC, EF Core, SQL Server, and iText7.

RestoM - Restaurant Management System Web app

- **Description:** A comprehensive 5-module platform for streamlining restaurant operations and real-time analytics.
- **Role &Tech Stack:** Full cycle development using ASP.NET Core Web API, Entity Framework Core, SQL Server, RESTful API, HTML5, CSS3, JavaScript.

SKILLS

- **Backend .NET Development:** C#, ASP. NET Core (Web API, MVC), nopCommerce, RESTful APIs.
- **Database & ORM:** SQL, Entity Framework Core , ADO.NET, LINQ.
- **Architecture & Clean Code:** Clean Architecture, SOLID, DRY/KISS, nopCommerce Architecture, Dependency Injection (DI), Repository & Unit of Work Patterns.
- **Front End Technologies:** HTML, CSS, JavaScript, Bootstrap.
- **Tools & Platforms :** Visual Studio 2022/VS Code, SQL Server, Git/ GitHub, Postman, Swagger.
- **Soft Skills:** Self Learning, Adaptability, Problem Solving, Collaboration.

VOLUNTEERING

UNIFLIX HU

Participated as Board Member and Marketing Leader

LANGUAGES

- **Arabic:** Mother tongue
- **English:** Professional Working Proficiency
