# ABDALLAH J. KHADER

## JUNIOR .NET DEVELOPER

Amman, Jordan • +962 782576216 • AbdallahJKhader@gmail.com

Github • Linkedin • Portfolio

---

## SUMMARY

Junior .NET Developer with practical experience applying C#, ASP.NET Core MVC, Web API, and Entity Framework by following ITI training materials and completing their hands-on projects. Skilled in implementing web application features, collaborating in team settings, and eager to further develop technical and problem-solving expertise in real-world projects.

---

## EDUCATION

**Bachelor of Computer Science and its applications**  
The Hashemite University  
Expected GPA : 3.1

October, 2022 – Expected at January, 2026

**High school (Tawjihi)**  
Mazhar Arslan Secondary school  
Grade : 91.5

October, 2021 – August, 2022

---

## EXPERIENCE

**Danish Jordanian Dairy**  
IT Department Intern (University Internship)

July, 2025 – September, 2025

As an Intern, I provided technical support to internal users, assisted in system and network troubleshooting, and contributed to maintaining IT documentation. I applied practical knowledge of SQL Server in real-world tasks, while strengthening my problem-solving, teamwork, and adaptability in a professional environment.

**Extensya (on behalf of Talabat)**  
Customer service Agent

June, 2023 – September, 2023

Representing Talabat restaurant operations, I managed inbound customer inquiries, resolved complaints efficiently, and provided professional support that improved satisfaction. I also documented requests to enhance workflows while building strong communication and problem-solving skills in a fast-paced environment.

---

## PROJECTS

**Focus and read Web app**

Distraction-free educational web application built with **ASP.NET Core MVC**, specifically designed for neurodivergent learners, particularly students with ADHD, to boost focus, organization, and productivity. The platform integrates multiple smart tools, including customizable Pomodoro timers and a Virtual Classes feature. Key AI-powered features include Intelligent Summarization and Quiz generation.  
**My role** focused heavily on Back-End development. Implemented as a B.Sc. graduation project at The Hashemite University.

**RestoM - Restaurant Management System**

Comprehensive restaurant management web application built with **ASP.NET Core Web API**, designed to streamline restaurant operations and enhance efficiency. The platform integrates Order Management, Inventory Control, Table Management, Invoicing System, and Analytics Dashboard with real-time order processing, smart table management, and sales analytics.
**Tech Stack:** ASP.NET Core Web API (Backend), HTML/CSS/JavaScript (Frontend), Entity Framework Core (Database)
**My Role:** Full-stack development, implementing RESTful APIs, database architecture, business logic, and complete frontend interface.

---

## SKILLS

- Languages & Frameworks : C#, SQL, JS, ASP.NET Core MVC, Web API.
- Database & ORM : SQL Server, Linq, ADO.NET, Entity Framework, CRUD, Stored procedures.
- Web Technologies : HTML, CSS, Bootstrap.
- Architecture & Clean Code : OOP, Code first & DB first, Repository Pattern, Dependency Injection, Restful API.
- Process & Version Control : Git & Github, Visual Studio / VS Code.
- Soft Skills : Problem Solving, Collaboration, Adaptability, Self Learning.

---

## LANGUAGES

- Arabic (Native)
- English (C1)

---

## CONTRIBUTIONS

- UNIFLIX HU participated as CEO Member and Marketing Leader.
