ABDALLAH J. KHADER

Backend .NET Developer

Amman, Jordan • **+962782576216** • **AbdallahJKhader@gmail.com**

Linkedin • Github • Portfolio

SUMMARY

Software Engineer specializing in Backend .NET Development with hands-on experience in building scalable Web APIs and web applications using ASP.NET Core MVC and Entity Framework Core. Passionate about writing clean, maintainable code by applying SOLID principles and Clean Architecture concepts. Skilled in implementing backend business logic and working with SQL Server to deliver structured and reliable backend solutions

---

EDUCATION

Bachelor of Computer Science and Applications   **10/2022 – 01/2026**

The Hashemite University

GPA: 3.01 out of 4 (Very good)

High school   **09/2021 – 08/2022**

Mazhar Arslan Secondary School

Grade: 91.5 out of 100

EXPERIENCE

AiGlean   **02/2026 – Present**

Software Engineer (.NET)

- **Developing** and maintaining scalable .NET Core Web APIs and Backend services, implementing complex business logic and secure integrations to support AI-Driven enterprise solutions.
- **Customizing** nopCommerce platforms by developing tailored plugins and integrating WhatsApp Business API to automate e-commerce workflows and enhance customer engagement.

Danish Jordanian Dairy   **07/2025 – 08/2025**

Technical support Engineer (University Internship)

- **Resolved** 25+ technical tickets weekly, providing high-quality support and troubleshooting networking, hardware, and software issues to minimize downtime.
- **Leveraged** SQL Server for database tasks and maintained IT documentation, ensuring streamlined workflows and efficient team collaboration.

PROJECTS

Focus and read Web app (Graduation Project)

- **Description:** Smart study Web application for ADHD to increase focus and productivity.
- **Role:** Developed backend logic and database architecture, integrated Llama 3 AI, and implemented file processing modules.
- **Tech Stack:** ASP.NET Core MVC, SQL Server, EF Core, Llama 3/Groq API, OpenXML, and iText7.

RestoM - Restaurant Management System Web app

- **Description:** A Comprehensive Management Platform integrating 5 core modules, including Ordering Dashboard, Inventory Control, Table Management, and Invoicing. Developed to streamline restaurant operations and provide real-time data analytics.
- **Tech Stack:** ASP.NET Core Web API, Entity Framework Core, SQL Server, HTML5, CSS3, JavaScript.

SKILLS

- **Backend .NET Development:** C#, ASP. NET Core (Web API, MVC), RESTful APIs.
- **Database & ORM:** SQL, Entity Framework Core , ADO.NET, LINQ.
- **Architecture & Clean Code:** Clean Architecture, SOLID, DRY/KISS, Dependency Injection (DI), Repository & Unit of Work Patterns.
- **Front End Technologies:** HTML, CSS, JavaScript, Bootstrap.
- **Tools & Platforms :** Visual Studio 2022/VS Code, SQL Server, Git/ GitHub, nopCommerce, Postman, Swagger.
- **Soft Skills:** Self Learning, Adaptability, Problem Solving, Collaboration
